THE FIRST COUNTY—An historical fact in connection with Washington county which gives it a distinction is that it was the first county born of the new commonwealth or in other words it was the first county created after Kentucky was admitted in the Union as a State In 1780 Kentucky was Kentucky county, Va., says a writer in the Bardstown Observer. In May, that year, it was divided into counties. Jefferson, Fayette and Lincoln. In October 1784, by an act of the Virginia Assembly, Nelson county, was taken from Jefferson. Salt River was made the line—south of it was Nelson county. In May 1785, by another act, Fayette was divided, and the northern portion was called Bourbon county. In August of the same year, another act divided Lincoln county, and formed out of it Mercer and Madison counties. In May, 1788, Mason county, was formed out of a part of Bourbon, and Woodford out of a part of Fayette. In June 1792 these nine counties comprised the Commonwealth of Kentucky, and was formally admitted into the Union as a State. After the formation of Washington county other counties were formed rapidly several of the neighboring counties being made of territory cut off from this county.

COMPLAINT—There is some complaint among the residents of the town and especially those who live on the outskirts about the disregard in which the stock law is held by the town cows. Several lawns and flower gardens which represent a good deal of pains and labor on the part of the owners have been raided and laid to waste by the unruly town cow or hog in open violation of the law and against the peace and dignity of the community. The town has a pound, to which all stock found running at large is supposed to be committed, but unless some unlucky beast should by a mere chance invade the main business thoroughfare of the town it will be allowed to roam and raid at its own free will. The pound is maintained, too, at a regular monthly expense to the town. The law should either be enforced and the loose stock run in or the taxpayers should be relieved of the expense of maintaining a pound that don't impound.

RINEHART—Dr. J. F Rinehart who with his family went to California last fall on account of his failing health has decided not to return to Springfield but will remain indifinitely in the glorious climate of California where he has regained health and where he is also building up a comfortable practice in his profession. Dr. Rinehart has only recently made this decision, it having been his intention to return to this place this summer. His household goods and other effects have been shipped to him and he has disposed of some of his property here, Dr S. J. Smock purchasing his dwelling house. Those who know Dr. Rinehart and are familiar with his ability to hustle offer the prediction that he will hold his own in the fast company of the Pacific coast.

AT WORK—The directors of the new Water and Electric Light Company are diligently at work and are confident that the efforts to put in a water works sytem and an electric light plant will be crowned with success. Careful surveys and estimates have been made and the promoters of the enterprise will master all of the details as to probable cost, etc., before the work is actually begun. It has been ascertained that the plants can be built much cheaper than first estimates indicated which is one important point gained and the stockholders in the company feel assured that money put into the enterprise will be used to the best advantage.

QUESTION ANSWERED.

Yes, August Flowel still has the largest sale of any medicine in the civilized world. Your mothers and grandmothers never thought of using anything else for Indigestion or Biliousness Doctors were scarce, and they seldom heard of Appendicitis Nervous Prostration or Heart Failure, etc. They used August Flower to clean out the system and stop fermentation of undigested food, regulate the action of the liver, stimulate the nervous and organic action of the system, and that is all they took when feeling dull and bad with headaches and other aches. You only need a few doses of Green's August Flower, in liquid form, to make you satisfied there is nothing serious the matter with you. For sale by Haydon & Robertson.

Carlisle's Big Fee.

The decision of the Supreme Court recently handed down in the case of the State of Texas vs the Huston and Texas Central Railway Company reverses the decision of the State Court, and holds that the State cannot go behind its own obligations. The suit was to recover interest on the bonds of the road held by the State school fund, but which had been settled by the road in warrants issued by the State during the war of the rebellion. The contention of the State was that the warrants were not legal tender, as they had been issued while the State was in rebellion. The opinion of the court denies this, and holds that the interest due the State had been settled in a legal manner. The judgment against the railroad in the State courts was $1,400,000 and costs, about one and a half million dollars in all.

Ex Secretary John G. Carlisle was the attorney for the railroad company and his fee for successfully terminating the suit in favor of the railroad company was a large one, not less than $50 000.

A Fake.

The rumor and sensational report that a mistake had been made by the Lakeland authorities in the shipment of another man's dead body for the corpse of Dan Murphy is a fake of the yellowest sort. John Murphy, the father of Dan Murphy, was deeply grieved at the sensational story which kept the unfortunate trouble of his son before the public. His answer was, "I reckon I know my son, he is dead and his body was shipped here for burial. The statement that it was not my son is false." Here the old man's feelings overcame him and he could say no more.—Lebanon Enterprise.

Sound advice to those who have kidney and bladder troubles, is to take a safe, sure medicine like Foley's Kidney cure. It always benefits the Kidneys. Haydon & Robertson.

Dr. Bell's Pine-Tar-Honey will cure a child's croup or allay the irritation, ending the danger in less time than it will take to go for a doctor. All mothers who have used it keep a bottle for every emergency. It is harmless.

DOES IT PAY TO BUY CHEAP?

A cheap remedy for coughs and colds is all right, but you want something to relieve and cure the more severe and dangerous results of throat and lung troubles. What shall you do? Go to a warmer and more regular climate? Yes, if possible; if not possible for you, then in either case take the ONLY remedy that has been introduced in all civilized countries with success in severe throat and lung troubles, "Boschee's German Syrup." It not only heals and stimulates the tissues to destroy the germ disease but allays inflammation, causes easy expectoration, gives a good night's rest, and cures the patient. Try one bottle. THURSDAY, MAY 10, 1900.

LABOR troubles and strikes are becoming alarming at various places. Practically every street car line in St. Louis is tied up by a strike of 3,825 employes of the St. Louis Transit Company. Only about 275 men remained on duty, and the effort to run cars brought on a series of riots, in which one man was shot and several others hurt. The strikers attacked every car that was sent out, and in some instances the police were compelled to resort to rough methods to disperse the crowds. Numerous arrests were made.

THE first issue of the Harrodsburg Democrat under the new management appeared last week. Mr. J. T. Boswell is the new editor and D. M. Hutton the new business manager. The paper is much the same in make up but its policy is to be for free silver straight. F. D. Spotswood the retiring editor goes to Lexington to engage in other business. Under his editorship the Democrat has always been bright and entertaining if not always made up to please everybody.

CALEB POWERS, accused of being implicated in the Goebel assassination has made the statement that even should the Supreme Court decide that Taylor is Governor he will not attempt to use the pardon issued him by Taylor when he was about to flee, but will stand his trial. Powers evidently has great faith in his innocence. If he can succeed in convincing everybody else as well he will be all right.

THERE's a big scandal in the Havana post-office. Charles F. Neeley, a trusted employee, stole some $80,000 or more. Neeley was arrested but afterwards released on $20,000 bail, some unknown person putting up the cash for the bail.

JIM HOWARD the man indicted for the murder of William Goebel and who has not been arrested announces his intention of surrendering to the Sheriff of Clay county and going to Frankfort for trial.

Nelson's Masonic Celebration.

While all the big Masonic fish in the world will be "in the swim" in 1901, the quaint old town that has the honor of being the center of gravity in Nelson county, Ky., will be found floundering around" in a pool of her own. Says the Louisville Commercial: At the time Bardstown Masons intend celebrating the 100th anniversary of their lodge, and it goes without saying that they will have a great and glorious "jamboration." Just think of it, a century ago when Bardstown was at the apex of her glory, what a time the men that instituted this lodge must have had. It was, no doubt, one of the greatest events that ever occurred in the West, and there is no telling how far the men journeyed horseback who performed the installation ceremonies. Yes, this celebration no doubt will be one that will revive the history of early Masonry in Kentucky, and will be a pleasant feature with the craft all over the State.—Observer,

HEART FAILURE

Every day adds to the list of deaths attributed to heart failure. If the truth were told the bulk of these deaths might be written down as due to *stomach failure*. For it is in the stomach and other organs of digestion and nutrition, that "weak" heart, "weak" lungs, "weak" nerves and other forms of physicial deterioration having their beginning. The man whose stomach is sound, who can digest and assimilate the food he eats, and so keep each organ of the body well nourished, is the man who is least liable to succumb under the sudden weakness of some vital organ.

The preservation of health which follows the use of Dr. Pierce's Golden Medical Discovery, is chiefly due to the fact that it perfectly and permanently cures diseases of the stomach and organs of digestion and nutrition, purifies the blood and increases the blood supply of the body. Weak people will find in this medicine a sure means of strength.

"I was under doctor care for quite a time," writes Mr. J. F. Kidd, of Parmleyville, Wayne Co., Ky. "They had almost given me up, and my suffering was very great. My pulse was weak, heart beat about 120, had severe pains in back, head and legs. Had palpitation of heart, could for eleven months I was not able to do a day's work. I purchased five bottles of Dr. R. V. Pierce's Golden Medical Discovery and by the time the fifth bottle was gone I was a well man."

Dr. Pierce's Pellets regulate the liver.

The ancients believed that rheumatism was the work of a demon within a man Anyone who has had an attack of sciatic or inflammatory rheumatism will agree that the infliction is demoniac enough to warrant the belief. It has never been claimed that Chamberlain's Pain Balm would cast out demons, but will cure rheumatism, and hundreds bear testimony of the truth of this statement. One application relieves the pain, and this quick relief which it affords is alone worth many times its cost. For sale by Baydo Robertson.

COL. Nic McDowell, last week lost by death a fine Jersey cow which gave twenty-two pounds of butter a week.—Danville Advocate.

The $10,000 high stepper, Red Cloud, it is said, is not a son of George Wilkes' son The King, but is by a horse called King, that was owned by John B. Wilson, near Sharpsburg, Ky., who bred Red Cloud. King was by Harrison Chief, a son of Clark Chief, and his dam was by George Wales' old pacing horse Yellow Jacket, the sire of Thomas L. Young 2:194. Red Cloud got his name from the sire of his dam. That horse was called Red Cloud. and was by Noah Dill's Indian Chief, the sire of the great show mare Lady de Jarnett 2:28.

At the Short horn sale of W. T. Miller & Sons and L. L. Moorman and others held at Winchester, Ind., last Thursday, the great attraction, of course, was the well-known show cow Sallie Girl. She was started at $500 and quickly went to $1,500 during a three-cornered fight between Mr. Meredith, E. B. Mitchel & Sons and J. E. Robbins bidding for W. O. Minor. From here on it was a fight between Mitchell and Minor, the latter securing her on a bid of $1700. SHORT NEWS STORIES.

"Chimmie Fadden's" Audience of Two—Worst Yankee He Ever Saw—The Great Historl.

"I once had a very appreciative audience of two, who, however, made up in importance their inconsiderable number," said Edward W. Townsend recently in speaking of his readings of "Chimmie Fadden," "Maj. Max" and other stories.

"It was in Cleveland soon after the nomination of McKinley and Bryan. I was one of several guests at dinner at Senator Hanna's table where house and after dinner went with the men out on the veranda for cigars and black coffee. "Mr. Hanna, Governor Merriam, Senator Foraker and other guests were soon deep in politics, which did not interest me a little bit, and I strolled into the big hall, where Mrs. McKinley and Mrs. Hanna sat. Pretty soon I heard Mr. McKinley say, 'Well, if you fellows are going to talk politics I'm going to desert you,' and he strolled into the hall. Mr. Hanna calling after him, 'Get Townsend to read you a "Chimmie Fadden" story, governor.'

"Well, I'd been reading the stories for Mr. and Mrs. Hanna and a few friends I'd met there some evenings before and had made a hit with my small audience, but I was doubtful of succeeding with an audience of only two. I tried, however, with the story of 'Chimmie's wedding journey' and was tremendously pleased when at the end Mr. McKinley said laughingly, 'You've put every thought of politics out of my head.'

"And that's something to be thankful for," said Mrs. McKinley."

Worst Yankee He Ever Saw.

General H. M. Johnson, a New Orleans millionaire, has a picturesque cabin in the Catahoula camp. He was out trout fishing with his guide one day. To pass away the time the

"GEE WHIZ!" EXCLAIMED THE GENERAL

general entertained him with stories of the civil war and of his experiences in the Confederate army.

Johnson had just reached the middle of a most thrilling anecdote when a fine moose made his appearance on the side of the brook in which the general and his guide were fishing. The guide paddled softly up to the beast, who had not scented the intruders. The general held his breath, turned white and drew himself back. Just then the moose threw up his noble head, spreading his huge antlers and loped into the woods.

"Gee whiz!" exclaimed the general after his astonishment had subsided somewhat. "Say, that's the worst Yankee I ever saw. If you'd sent that sort of a thing into the south, you wouldn't have been so long whipping us."

Touching Consideration.

"That burglary was the most satisfactory affair I have ever heard of."

"What do you mean?"

"They went through my daughter's 700 wedding presents and carried off only the duplicates."—Chicago Record.

For ten years I tried scores of doctors, electric belts and patent medicines. Some helped me, none cured. I was giving up in despair, in fact, contemplating suicide, when a friend advised me as a last resort to give the New Method Treatment of Drs. K. & K. a fair trial. Letters received from prominent men over the State indicate that the convention here next week will be well attended. Gov. Beckham, Congressman Smith and several other party leaders will be on hand to show them a good time. Congressman Rhea, Wheeler, Allen, Turner, Gilbert and Fitzpatrick will be invited to be present. Delegates to the Congressional Convention which meets here next Thursday will receive a warm welcome from Bardstown people.

Last Saturday night was quite a busy time for the town marshals. Besides six or eight arrests that were made, four young from the Woodlawn neighborhood came to town and proceded to run the city as they saw best. They went to the Opera House where the colored people were holding forth, and came involved there with some of the male occupants, and were more or less badly used up. One got his teeth knocked out, another shot in the leg and still another got badly cut. Upon the arrival of the marshals the men fled and consequently "they haven't been seen since."

Is Kentucky Democratic.

Kentucky is certainly a Democratic State, but thinking and conservative men realize that it is only Democratic when the party is united and harmonious, and that any serious division of the party threatens and invites defeat. To prove this conclusively and give to the irreconcilables something to think about, it is only necessary to look at results for the past six years. In 1894 on the Congressional vote the Republicans carried the State; among other things a majority of 3,500 in this district for the Democrats was changed to 1,200 for the Republicans. In 1895 Bradley was elected Governor by nearly 10,000 majority, and the Legislature was Republican. In 1896 for the first time in the history of the State the electoral vote was cast for a Republican. Last year the Republicans had a majority of 2,383 on the face of the returns. In 1897 the Democrats carried it by a handsome majority, but this was only once in six years. When we carried it in 1897 it was due to a union of all kinds of Democrats in Louisville to secure the city officers, and to the splendid campaigns made in the close counties by the Democratic county tickets and the free use on the part of these tickets of everything to secure success. To carry the State once in six years without a contest in the courts is a serious lesson to Democracy, and if it does not teach that success can only be secured by harmony and union in the party, why then the experience is vain.—Elizabethtown News.

FOUND A GOLD MINE.

It Was in His Poultry Yard.

Man in Iowa Uses a Compound that Makes His Hens Lay Double the Usual Number Summer and Winter. Secret of His Success.

People in the neighborhood of Creston, Iowa, are amazed at the number of eggs that a man drives to market with. When asked what was the cause of his hens being so prolific, he stated it was all in a certain compound he was using, that kept his hens in good condition furnished them with the proper stimulus to egg production. American Poultry Mixture is the name of it, and is made by American Mfg. Co. Terre Haute, Ind. Every man in the poultry business is interested in the health of his hens and their laying capacity. In the eggs lie his profits. This mixture is guaranteed to increase the production of eggs 100 per cent or money refunded. It will do more than three times as much as the same amount of any other compound. It is concentrated in form and the result of years of practical experience in the poultry business. There is absolutely no doubt as to what it will do, and you are invited to try it at the expense of the company. Send $1.00 for a sample package and if it doesn't do the work you get your money back. This is fair and is made to induce practical poultrymen to give it a trial. It is also a sure preventive of such diseases as the terrible cholera and roup which create such havoc in all parts of the country. It acts directly on the craw and gizzard and is a thoroughly scientific preparation.

The manufacturers guarantee every package or refund purchase money. If your druggist don't sell American Poultry Mixture, he's behind the age. In that order direct from American Manufacturing Co., Terre Haute, Ind.

Washington Letter.

From Our Regular Correspondent.

Secretary Long has been accused of being on Sampson's side in the controversy with Schley, but his letter of censure to Capt Chadwick for having criticised Schley did not indicate such favoritism. It was one of the sharpest rebukes ever administered to a naval officer. For instance this paragraph, referring especially to Chadwick's claim that, although he made the criticism to a newspaper man he didn't intend it for publication: "While he may not have had justification in publishing what you understood, and regarded as understood by him, to be private conversation, you knew the risk you ran, and within a year had been reprimanded for similar misconduct, in putting yourself and the welfare of the service to the same risk with the same result. You have thus again and further impaired the confidence of the department in your discretion."

Nobody was looking for anything sensational in the debate which preceded the passing of the Nicaraugua Canal bill by the House, but the personal wrangle between Representative Hepburn, author of the bill, and Representative Cannon, of Ill., was one of the most sensational of the session, each charging the other with improper motives in his attitude towards the building of an isthmian canal. Before the House had quieted down after the Hepburn-Cannon row, there was another between Representatives Gaines, of Tenn., and Mann, of Ill. It is not regarded as probable that the Senate will take up the Canal bill at this session.

Senator Teller has offered a resolution expressing sympathy for the struggling South African republics and the desire that this government by its friendly offices, offered to both governments, may assist in bringing the war to a close with honor to both sides. As the Senate only a few days ago voted down a similar resolution offered by Senator Pettigrew there is no likelihood of the adoption of Senator Teller's.

Senator Stewart, in answer to a request from Senator Teller to tell the Senator the difference between good and bad trusts, said: "The Senate of the United States is a trust, and I believe a good one." After the laughter had quieted down, Mr. Stewart seriously expressed the opinion that it was very difficult to draw a line between the good and bad trusts, but that competition, if left untrammeled, would give the people their best opportunity to get rid of bad trusts. He regretted that there was no way of stopping demagogic howls on the trust question, which would continue as long as they produced votes.

The Senate this week passed the Alaskan civil code bill without amendment. Preceding the vote Senator Carter, who was in charge of the bill, withdrew his amendment relating to the location of mining claims, saying that he did so not because he did not think it just and fair, but because he recognized that either the amendment or the bill would have to be abandoned and he considered the necessity for the legislation pressing.

Secretary Hay says this government has no knowledge that any European government is trying to purchase the Danish West Indies, which Denmark has offered to sell to the United States; nor of any attempt on the part of persons connected with the Standard Oil Company to compel Denmark to pay them a commission if the sale is made; that only those authorized to act for Denmark have been recognized in the negotiations by the Department of State. As the matter now stands Denmark has offered to sell the islands to us and the offer is in the hands of the Senate Committee on Foreign Relations.

After spending two days listening to arguments in the Kentucky case the United Supreme Court took a recess until May 14 when it is expected a decision will be handed down.

Wheat in Kentucky.

The average condition of the wheat crop of the State May 1st, compared with normal years, is 100, which is 4 points above the April average and 12 points above the average for the past four years.

The three sections of the State separately show the average condition as follows: Western 101; central 97; southeastern 102. It must not be supposed from the foregoing that the crop, generally speaking, presents a less favorable prospect in the central than in the other sections. The lower average is due to the poor prospect in the counties of Boone, Gallatin and Kenton, of which mention was made in the April report. Little improvement has occurred in these counties as a whole, though there are some fine fields to be seen. In Campbell though, where the condition was 67 on April 1st, the crop has improved until the condition is now normal.

A large number of correspondents report the crop the finest ever known at this season. The growth is so rank that there is some apprehension that the crop will lodge before it can be harvested. In some fields it is thin on ground, but as a rule it has "tillered" well during the month and the stand is good. Answers to question, "what per cent of average will be plowed up?" show there will be practically no loss of acreage in this way.—Ky Crop Report.

Lebanon Locals.

The Falcon.

Will Fogarty, son of Mr. Patrick Fogarty, who recently lived out on the Springfield road but who now resides near the Fair Grounds, was on last Tuesday adjudged a lunatic and ordered sent to the Lakeland asylum.

Mr. D C Tucker, Jr., of Bradfordsville, reports that he sold to Eastern parties last week, a pair of high grade roadster mares, for which he received the handsome price of $1 000.

A line of railway, either electric or for light steam cars, is being discussed, to run from here through Bradfordsville and Hustonville, thence to Moreland, connecting with the Cincinnati Southern at that point. A Chicago construction company is figuring on the enterprise. The proposed road would be purely co-operative and owned by the citizens. People living along the route of the proposed line are much interested and many would give right of way and subscribe for stock. Such a road would be a fine thing for this section, and we hope the project will not end in talk.

Mr. Sylvester Russell made a bad break in the court room the other day and was promptly called down by the gallant Captain Sweeney. Mr. Russell was a witness in a lunacy case, and being asked why he suspected the party on trial of being of unsound mind, said: "Well, I heard him say that there were more pretty women in Lebanon than any place he ever saw." Mr. Sweeney immediately insisted that this was the best possible evidence of his sanity, without giving Mr. Russell an opportunity to explain that the remark was made just as there was a number of females passing who, he thought, were anything but pretty.

CONSTIPATION

"I have gone 14 days at a time without a movement of the bowels, not being able to move them except by using hot water injections. Chronic constipation for seven years placed me in this terrible condition; during that time I did everything I heard of but never found any relief; such was my case until I began using CASCARETS. I now have from one to three passages a day, and if I was rich I would give $100.00 for each movement; it is such a relief." AYLMER L. HUNT, 1689 Russell St., Detroit, Mich.

ECZEMA—SATANIC ITCH.

This most aggravating and tormenting of all skin diseases is caused by an acid condition of the blood, and unless relieved through certain instrumentalities too much of this acid poison reaches the skin and it becomes red and inflamed. The itching and burning are almost unbearable, especially when overheated from any cause. The skin seems on fire, sleep or rest is impossible, the desperate sufferer, regardless of consequences, scratches until strength is exhausted.

This burning, itching humor appears sometimes in little pustules, discharging a sticky fluid, which forms crusts and scales. Again the skin is dry, hard and fissured, itches intensely, bleeds and scabs over. This is a painful and stubborn form of the disease.

While Eczema, Tetter, Erysipelas, Salt Rheum and many like troubles are spoken of as diseases of the skin, they are really blood diseases, because

THERE CAN BE NO EXTERNAL IRRITATION WITHOUT AN INTERNAL CAUSE.

If the blood is in a pure, healthy condition, no poisonous elements can reach the skin.

External applications of washes, lotions and salves sometimes mitigate the itching and soothe the inflammation, but cannot reach the disease. Only S. S. S., the real blood medicine, can do this.

S. S. S., the only purely vegetable remedy known, is a safe and permanent cure for Eczema and all deep-seated blood and skin troubles. It goes direct to the seat of the disease, neutralizes the acids and cleanses the blood, re-inforces and invigorates all the organs, and thus clears the system of all impurities through the natural channels; the skin relieved, all inflammation subsides, and all signs of the disease disappear.

Mrs. Lela M. Hoffmin, of Cardington, Ohio, says she was afflicted with Scrofulous sores and Eczema from birth. Her face at times became so badly swollen that she was not recognizable, and her limbs and hands were very sore. She was treated by all the doctors in town without being benefitted, and in her researches for relief, was told by an old physician to take S. S. S. She followed his advice and was promptly cured, and has never had a return of the disease. This was seventeen years ago. She sincerely believes she would have been in her grave years ago but for S. S. S., and adds, "what it has done for me it will do for others."
